

Wormhole Monster

Wormholes, both natural and man-made, are generally regarded to be phenomena yet to be fully understood, even by those who have managed to replicate their energy signature. This is made only clearer every few months when the energies of these rifts in space fluctuate dramatically, opening what some believe may be doorways to alternate dimensions. The limited amount of time these altered gateways remain open, paired with the abundant life that comes swarming through, life aptly named Wormhole Monsters, make exploration impossible, even though many of the most zealous scientists yearn to one day travel through these portals to see what mysteries lie beyond.

Locations

Wormhole Monsters spawn near wormholes during the wormhole special event.
