

X-993 Squad

Tasked with gathering the basic raw materials for continued production of the X-993 Series, the X-993 Drone is a craft of the simplest kind. Fitted with mining lasers, gas harvesters, and unique energy cells created by CASSN upon its evolution, these tiny vessels are quite often found in the dozens, busily working away the long hours of the day. Due to the repeated hostilities by the Empire against the X-993 Series, CASSN has retrofitted many of its drones with basic weaponry systems, making this working class craft an able soldier as well, a cunning intelligence hidden beneath its plain and harmless appearance.

Locations

X-993 Battlecruisers can be found in the Neutral Zone and Pardus Cluster.
